

DEBT & DEFICIT

United by America's Priorities

- Senate Republicans are united by America's top priorities.
- Democrats' reckless spending agenda has sent inflation soaring, raised interest rates; all while ballooning the debt and undermining Americans' economic well-being and financial security.
- While Democrats continue to tout their reckless spending agenda;
- Republicans are focused on getting the debt and deficit under control.

The Crisis Democrats Created: Ballooning Debt & Deficit

Democrats' reckless tax-and-spending agenda has cumulatively added more than \$5 trillion to government spending in just 21 months.

- For the first time ever, the U.S. national debt has topped \$31 trillion and now exceeds 100% of U.S. GDP.
- **Why it matters:** Ballooning debt jeopardizes the strength of the U.S. economy, the ability to fund government programs (defense, agencies, Social Security) and it sets up future generations for crisis.
- **What it means for the near-future:** As the Federal Reserve raises interest rates: higher rates could add an additional \$1 trillion to what the federal government spends on interest payments this decade.
 - » That's on top of the record \$8.1 trillion in debt costs that CBO projected in May.
 - » In practical terms: Expenditures on interest payments on the federal debt could exceed what the U.S. spends on national defense by 2029.

Here's a timeline of the debt crisis and how Joe Biden and Democrats have made it worse:

- From 1957 to 2008: The publicly held debt never exceeded 48% of GDP.
- During the Great Recession, in 2010: The debt jumped to 60% of GDP (up from 35% in 2007).
- During the Pandemic: The debt jumped another 20 points to over 100% of GDP.
- Now: CBO estimates that the debt will grow to 185% of GDP over the next 30 years.
 - » A \$1.9 Trillion Reckless Spending Spree: Biden kicked off this spending binge with one of the most expensive bills in the last 50 years when Democrats passed their \$1.9 trillion package.
 - » Biden Has Enacted the Most Expensive Regulatory Agenda of Any President in Modern History: Putting in place more than 429 new (final) rules that will cost American taxpayers an additional \$308 billion to comply with and implement.
 - » Democrats kept spending. In August, they passed another \$740 billion spending bill. CBO found this legislation: would not reduce inflation; and will add to the debt in the near-term.
 - » Then, Biden announced he would spend another \$1 trillion to cancel student debt: adding [\\$1 trillion to the deficit](#).

Spending is the problem driving America's ballooning deficit higher.

- » The gap between spending and taxes is growing, even as both rise above historic averages.

Republicans want to end the runaway spending and get the debt and deficit under control

- That starts with:
 1. Stopping the runaway spending;
 2. Banning budget gimmicks;
 3. Ending government shut downs; and
 4. Supporting a pro-growth economic environment.

Republicans have a record of putting forward legislative solutions to get the **debt and deficit** under control.
