11.	<i>February 8, 2024</i>	President Biden called the IDF's military operation in Gaza "over the top."
12.	<i>February 8, 2024</i>	Biden's National Security Memorandum 20 falsely implies that Israel is committing mass war crimes in its campaign against Hamas and threatens to cut off aid unless Israel meets arbitrary deadlines for providing "assurances" regarding international humanitarian law.
13.	<i>February 19, 2024</i>	The Biden Administration drafted a resolution for the U.N. to support a temporary Gaza ceasefire and oppose a Rafah assault to eradicate Hamas. When that failed, Biden's diplomats vetoed a different resolution for an immediate ceasefire.

22.	<i>March 22, 2024</i>	The United States submitted a draft resolution to the United Nation Security Council calling for an immediate ceasefire between Israel and Hamas in Gaza. The resolution is widely seen as an end of stalwart U.S. support for Israel at the United Nations.
23.	<i>March 25, 2024</i>	The United Nations Security Council passed a resolution demanding an immediate ceasefire between Israel and Hamas in the Gaza Strip. Biden's diplomats abstained from the vote, allowing it to pass. The resolution decoupled a demand for a ceasefire from a demand for the release of hostages. It also made no mention of Oct. 7 or Hamas.
24.	<i>March 28, 2024</i>	Biden's State Department undermined Israel's ability to finish taking out Hamas's remaining battalions and recovering hostages. The State Department posted on social media that a "major military ground movement in Rafah risks killing more civilians.
